

Norton offers the most powerful 750 twins!

FOR 1965

TEST THE NEW **Atlas**

750cc OHV **Atlas** ROAD/SPORTS MODEL

The NORTON 750cc OHV "Atlas" Twins (Road/Sports and the Scrambler models), have all the POWER, PERFORMANCE, RELIABILITY and HANDSOME APPEARANCE that every red-blooded American motorcyclist demands—From the tip of the chrome-plated front fender, to the tail-light, there's an abundance of quality and precision engineering, the same fine craftsmanship that went into the NORTONS that ac-

counted for 34 International TT Victories in the grueling Isle of Man races——No other motorcycle can offer so many engineering advances as does NORTON——Large full-hub front and rear brakes, anti-theft lock, symmetrically mounted speedometer and tachometer, "Road-holder" front forks, dependable 12 volt electrical system. Just remember to make your next motorcycle the world's best roadholder—a NORTON...
